Overview & Scheduling

Many MLSs are shifting to online open houses in response to the COVID-19 pandemic. These fields support this important change. Note that this is distinct to from the virtual tour fields already in the RESO Data Dictionary. These fields are meant to express details about a scheduled, live event, rather than a static web resource that can be accessed at any time.

These fields are being mapped and populated as the MLSs stand up this new offering, so population will be low at first launch of these fields.

These changes will be available on **Monday**, **April 6**.
