## to be applied Jan 13 & 20, 2021

# Notes

Content Patch #144 adds several enumerations, and one new field to all resources: "HumanModifiedYN". We'll discuss this field in depth in next week's API release notes, but the short version is that this field will be true if the latest change to the row was made by a human user.

The enumerations will be live on Jan 13, the field will be added to the metadata on Jan 20.
