## Notes

Content Patch #142 adds the **Teams and TeamMembers resources**. Two new Teams-related lookups are included: TeamStatus and TeamImpersonationLevel. As with any new resource, population will start low and increase as mappings are updated.

**UPDATE/CORRECTION:** We are *renaming* EstimatedActiveDate to ActivationDate, for better alignment with how MLSs are handling coming-soon listings. Population varies by MLS.

This patch also adds a number of new lookup values.

This patch will be published on Wednesday Nov 11.
